Portfolio: <https://sushils213.github.io/Portfol>

PROFESSIONAL SUMMARY

Motivated and detail-oriented Data Science and Machine Learning enthusiast with strong knowledge of Python, MySQL, Data Analysis, Data Preprocessing, and Machine Learning algorithms. Skilled in building predictive models and creating interactive dashboards using Power BI and Streamlit. Proficient in transforming raw data into meaningful insights to support decision-making and solve real-world business problems.

EDUCATION

Degree / Qualification	Institute	Year
B.Tech – CSIT	Sagar Institute of Research & Technology, Bhopal	2022–2026
Senior Secondary (XII) – 73%	MP Board	2021–2022
High School (X) – 89%	MP Board	2019–2020

TECHNICAL SKILLS

- Programming Languages: Python, SQL, C++
- Machine Learning: Supervised Learning, Classification, Regression, Feature Engineering, Model Training & Evaluation
- Python Libraries: NumPy, Pandas, Matplotlib, Seaborn, Streamlit, Scikit-learn
- Data Analytics: ETL, EDA, Data Cleaning, Data Visualization, Statistical Analysis
- Tools & Platforms: Power BI, Microsoft Excel, MySQL
- Web Technologies: HTML, CSS, JavaScript

PROJECTS

Student Performance Prediction & Personalized Feedback

- Developed a machine learning-based application to predict student performance using Logistic Regression.
- Implemented personalized feedback generation based on performance insights.
- Designed an interactive interface for students to enter marks and attendance details.
- Improved academic monitoring through analytics and reporting.

Loan Approval Prediction System

- Developed a Loan Prediction System using Python, Logistic Regression, Streamlit, and Data Analysis techniques.
- Conducted data preprocessing and feature engineering to optimize model accuracy.
- Deployed an interactive Streamlit application for real-time loan approval prediction and decision support.

PhonePe Transaction Data Analysis Dashboard

- Processed and analyzed digital payment transaction datasets to identify usage trends.
- Developed dynamic dashboards for payment performance visualization.
- Generated business insights for regional and customer behavior analysis.

CERTIFICATIONS

- Microsoft Power BI – Basics of Data Analytics | April 2026
- Sage Group – 2nd National Student Conference | April 2026
